72	Appendix C - Other Partners & Clients

Overview

This document has been compiled through a number of processes; statistics to represent the size and growth of the target sector, identification of networks and pathway organisations, identification of partners & clients, and detail of AI policy and regulations.

Our investigation focused on partner & client identification, a key part of the 42Maru brief. This research has identified 19 potential partner & clients that match the target industries and partner size profile.

Other potential partner & client organisations, that may be of interest, have been included in the Appendix C

We are your London Partners For:

Connecting to opportunities
and networks.

and finance.

Perfecting your relocation
and compliance needs.

Market Statistics

Market statistics have been researched in order to provide an overview of the UK AI opportunity, as well as the global market size and growth.

Secondary (desk) research to identify key trends in AI market values was sourced from a variety of channels including: Crunchbase, Government, international not-for-profits, commercial research agencies, Statista, Report Linker, LinkedIn and Beauhurst.

It is worth noting that as AI is a rapidly evolving technology, with ever-growing range of applications and use cases. There is mixed consensus on market values and we have represented this on the figures obtained.

Next Steps

The main purpose of this document is to provide you with an analysis of the market and to identify potential clients, networks and pathways.

The next stage is dependent upon the speed that you want to progress into London and the UK market.
